Priva III Quick User Guide

- LED indicator
- ON / OFF
- 3.5mm audio jack
- Micro-USB
- Multi-Function Button (MFB)
- USB in / charging socket
- Magnetic base

Pair and connect

- Pair**
Plug in the charging cable for power and switch the buttons to "ON".
- Pair**
Press and hold the MFB until the LED starts to blink. Get the headset or speaker into pairing mode.
- Connect**
Keep the devices close and wait until the LEDs stop blinking.
- Multi-use**
Press and hold the MFB until the LED starts to blink. Get the second headset or speaker into pairing mode. Repeat step 3.

Connect Priva III to an audio source

TV with 3.5mm headphone jack: Connect Priva III to the TV using the included 3.5mm audio cable.

TV with RCA ANALOG* OUT: Connect Priva III to the TV using the included RCA cable.

*Find the correct ANALOG output. You can connect wired earphones with the RCA cable to test whether the sound is normal.

aptX Low Latency

Never be out of power

You can connect Priva III to USB port of TV or charger for continuous power

Micro USB charging cable

3.5mm audio cable

If you'd like to use Avantree Headphone / Transmitter and your AVR at the same time, please DO NOT USE the Pre-Out ports or the surround ports on the back of the receiver. R. Here are a few Typical set up for your references: Reference Connection 1 (For both Smart TV or Non-Smart TV). Use AVR Phone Output AV Receiver Headphone port [Avantree Transmitter] AUX in from TV port Headphone Pros: 1. Easy to set up 2. No need to adjust TV audio format 3. Listen to all audio through AV receiver / Sound bar, not only TV program Cons: Mute AVR speakers Reference Connection 2 (For Smart TV). Use Avantree Transmitter Passthrough Function TV optical / digital out [Avantree Transmitter] Optical in from TV (Black) | Optical out to speaker port (Gray) Soundbar / AV receiver optical in Pros: 1. Both speaker and wireless headphones have sound 2. Support audio from all TV program Cons: 1. Not all Avantree transmitters can do this; the ones that has this feature: Oasis Plus (TC500P), HT5009, HT5006, Orbit (TC580), Opera (HT6190), Medley. 2. for TV program audio only. Does not support non-TV audio source. Reference Connection 3 Use TV Optical for Avantree & HDMI ARC for AVR (Only for TV supports Optical&HDMI ARC simultaneously output) AV Receiver HDMI Out TV [Avantree Transmitter] Optical in from TV (Black) Headphone Pros: 1. Easy to set up 2. Listen to all TV program 3. AV Receiver driven speaker still works Cons: Most TV does not support simultaneously output to HDMI ARC and optical. Reference Connection 4 Use an HDMI Audio Extractor with AVR Pros: Keep Surround Sound 7.1 / 5.1 with Avantree Transmitter / TV headphones working at the same time Cons: Get an extra HDMI Audio Extractor Reference Connection 5 (For Non Smart TV). Use TV Optical for Avantree & other HDMI (Not ARC) for AVR Avantree Transmitter optical in TV HDMI Cable-> AV Receiver HDMI Out Pros: 1. Easy to set up 2. Listen to all programs from TV and AV receiver through BT transmitter. Cons: 1. Disable TV&Receiver ARC function. Audio from TV cannot go through sound system attached to AV receiver. 2. With this Connection, you may get no sound problem on Direct TV program. That is Because- Sometimes, AV Receiver receive the Audio/ Video Signal from Cable box and Blu-ray, but it only send the video signal to TV, Not the AUDIO signal. Hence TV has no Audio signal for those program. TV Speaker has no sound for those program too. Here is the solution: 1. Plug TV program Source into TV HDMI Directly(not HDMI ARC). 2. Then connect TV Optical Out to Avantree TV transmitter's Optical In 3. Connect Avantree TV transmitter Optical out to AV Receiver optical audio in.Or Contact AVR Manufacture Support and ask how to output Audio Signal into TV also. If none of the above reference designs work for you, or you have other suggestions, we love to hear from you. Please email to support@avantree.com Transcript 材质：封面封底128G双铜 + 单色印刷 内页臻品上质80g高白纸 2个小号骑马钉 大约12页， 尺寸W 105 x H 75mm Simply Convenient 1. Features 2. Overview Avantree Priva is a Bluetooth audio transmitter incorporating the latest "aptX Low Latency" technology, for high quality audio streaming with virtually no delay. With multipoint receiver support, Priva allows you to share the fun and enjoyment of music with others. Battery/DC ③. LED indicator switch ④. Multi-function button (MFB) ⑤. Micro USB charging socket ⑥. 3.5 mm audio jack (Power on/off control) ⑦. Battery/DC switch 3.5 mm audio jack ⑧. Magnetic base (On/Off control) User Manual aptX Low Latency Multipoint Bluetooth Transmitter www.avantree.com 4. Getting Started Note: Priva supports true stereo headsets rather than mono A2DP headsets. -1- 4.1 Power On/Off Connected Enjoy Note: Once turned on, Priva will automatically go into pairing mode if it has not detected any connection. Wait for 5-15 secs, both LEDs blink blue slowly Connect to TV's audio output port Step-1: Enter Priva into pairing mode by plugging 3.5 mm audio cable Step-2: Put your headphones/speaker into pairing mode. Step-3: Keep them within 1 meter of each other, and wait until they have connected. Step-4: Connect Priva to the audio output port of the sound source, such as your TV, laptop, etc. for wireless audio streaming. Reconnection: Make sure your headset is on. Re-plug 3.5 mm audio cable, wait for 2-15 secs. 5. How to Charge 2 Re-plug. LED blinks blue and red. Then double click MFB, blue and red LEDs on 1 s. Micro USB cable -8- Battery DC Step 1: Get Priva into pairing mode by re-plugging 3.5 mm audio cable(Make sure your headset is off). Step 2: Double click the MFB button. Priva's BLUE and RED LEDs are both on for 1 s. Step-3: Restart Priva. -9- Battery DC D User Manual Priva www.avantree.com E F G H USB cable Note: The USB outputs of some TVs or laptops are unstable. When used in DC mode, we suggest you connect to a wall charger instead of a USB port. -2- -3- Connect 2nd headphone Enjoy Connect 1 st headphone as above 4.4 Place the Priva • Stick magnetic base to below optimal places • Avoid hanging behind TV 1M Connect to TV's audio output port Optimal Step-1.Connect to your 1st device as above. Step-2: Press and hold the MFB for 7 seconds. Priva will enter pairing mode again. Step-3: Enter the 2nd device into pairing mode and wait until they connect. Avoid Front Back Note: When connected to two devices, Priva will be operate in SBC mode only. 7. LED indications You may need to reset Priva if it is not working as expected. When Priva is reset to factory default settings, all the paired mobile phone information will be erased. 1 3.5 mm Jack -6- 6. Restore Factory Default Settings When the LED blinks red, you should recharge the device. It normally takes about 3 hours to fully charge the battery. Switch to BATTERY MODE before charging. The LED will stay red when charging and will turn off when charging is complete. Charging requirement: You can connect Priva via the supplied Micro USB cable to your own USB chargers(wall charger/travel charger/car charger, etc.) with 5V/500mA-1A or PC USB port. It's ok to use most mobile phone chargers on the market. C aptX Low Latency Multipoint Bluetooth Transmitter -5- -4- Red LED on when charging, Off when completed. B Simply Convenient Press & hold for 7 secs into pairing mode again, wait till connected Plug, wait until Get headset LED blinks into pairing blue & red mode DC Slide button to 'DC' mode Battery DC Connect 1st headphone 1M Battery Slide button to 'Battery' mode Magnetic base 4.3 Multipoint - Connect to two headphones (Optional) Pairing Power Off: Unplug 3.5 mm audio jack Micro USB charging socket 1. Battery mode - Switch to battery mode for use as a portable device. 2. DC mode - Switch to DC mode and connect to a DC power source for using with continuous power. 3.5 mm Jack What's in the box: A. Avantree Priva B. Magnetic base C. 3.5 mm audio cable D. RCA audio cable E. Micro USB charging cable F. User manual G. Quick start guide H.
